**Make Money By “Unlocking
Premium Content”**

Content Locking Profits

Thank you for picking up a copy of my latest cash cow report.

In this report I am going to show you how you can utilise the power of content locking Affiliate networks and make money from your CPA offers.

I have had quite a few people ask me on the best methods of making money from Content Locking.

In this report I am going to show you exactly how I make money from content locking scripts.

Some of the methods might be a bit controversial but they 100% work. I have had lots of success with my content locking strategies and I am now going to share all of my secrets with you.

Getting Started

Before anything else the first thing you need to do is sign up to content locking networks.

The most popular network when it comes to Content Locking was CPA Lead – <http://www.CPALead.com>.

However, over the past year or so there have been many different content locking scripts and lots of different content locking Affiliate networks that have been cropped up.

The most popular ones I can name are <http://blackhatcodebreaker.com/> and <http://wplockz.com/>

Content Locking is very lucrative and people are making thousands and thousands of dollars per week doing this!

Why is this so lucrative?

Simple.

People will do whatever it takes in order to “get something” or “watch something”.

For example, all you have to do is look at the amount of people who are online trying to watch PPV events and sporting events.

One of the best new content locking networks that has recently been getting a lot of attention is <http://www.blamads.com/>.

Make sure you are either registered or have some kind of Content Locking script you can use.

Once you have been accepted to the network(s) the next thing to do is get started with your content locking strategy.

The first strategy I use is one of my favourite strategies.

I have discussed this a few times before but this time using CPA Lead.

The first thing you need to do is make sure you bookmark two main websites.

<http://rnbuncovered.com/>

<http://rnbexclusive.com/>

These two main websites have a lot of Rnb music (which is released way before it is released anywhere on the net)

Controversial..yes but very lucrative.

So the first thing I am going to do is download a track from this website and see if it shows up on Youtube and analyse the competition.

For example, I am going to download “J-Hype – Girl of my dreams”.

This is a brand new song that was just added today.

As you can see on Youtube there are just 2 tracks uploaded!

The League - I OVF with I vrics

by RealHij

by FMon

by JoeySt

So what I am going to do is download this track and upload it to Youtube.

Downloading this track is pretty easy. Simply go on to the link of the song and follow the instructions.

You then need to upload this song to Youtube.

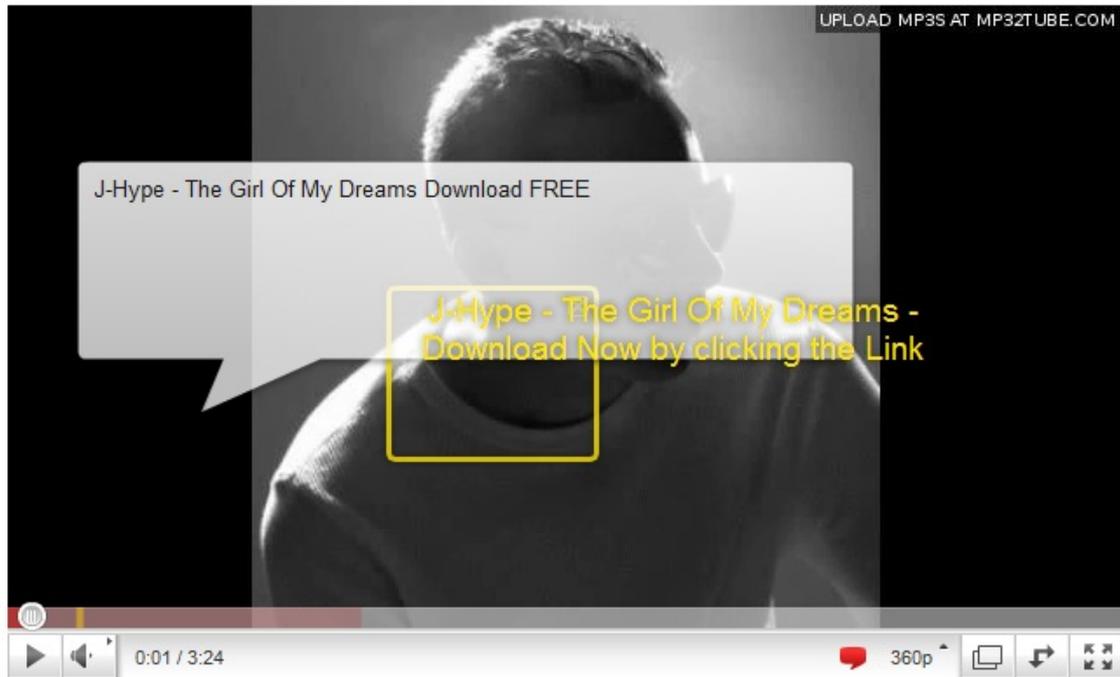

I use <http://www.mp32tube.com/> to upload the mp3 to Youtube.

Make sure you have an image of the music artist and then include a Youtube annotation (like the one shown).

As you can see I have included the keyword in the description to people can find the video easily.

The next thing I am going to do is set up a CPA Lead content locker on this. So when people are directed to the link to “download the song” they will need to fill out a CPA offer.

Now remember we are not going to host the MP3 file on our hosts, we are simply going to direct people to the actual

Content Locking Profits

source of the mp3 file (this will not break terms and conditions).

So the first thing to do is log in to your CPA Lead account and create a “new widget”.

The screenshot displays the CPA Lead dashboard interface. On the left is a green sidebar menu with categories: DASHBOARD, EARNINGS, STATISTICS, TOOLS, SURVEYS, COMMUNITY, MARKETPLACE (569), ACCOUNT, and SUPPORT. Under the 'TOOLS' section, 'Widgets *' is expanded, and 'Create Widget *' is highlighted with a red box. The main content area is titled 'Create new widget' and features a dropdown menu for 'Select content type' with 'Music' selected, also highlighted with a red box. Below this are two widget creation options, each with a 'Create' button and a red box around the text: 'My website has music for "Download"' and 'My website contains music.'. The page also includes sections for 'Monetize your Music.', 'Monetization Suggestions' (listing Albums, Mix Tapes, Songs, Instrumentals, Exclusives, Higher Quality Internet Radio Streams), 'Instruction Text Suggestions' (listing survey completion instructions), and a 'Widget example' showing a banner for 'PINK FLOYD' with icons for a survey, mobile phone, clock, shopping cart, PayPal, and a question mark.

We are going to select “Music” as content type.

Next make sure you select “my website has music for “Download”.

Next you should see something that looks like this (see below).

Content Locking Profits

The image shows a screenshot of a content locker interface. At the top, the title "Content Locking Profits" is displayed. Below it is a large window titled "Download" with a folder icon. The window contains the text "Please complete a survey to download this file." followed by a list of promotional offers:

- Get The Low Auto INS Rates You Want!
- Get The Lowest Auto Quotes Here!
- Save \$\$ On Auto Insurance Today!
- Play Bejeweled Twist Today!
- Dinner At Olive Garden On Us!
- Get \$500 To Use At Besy Buy!

At the bottom of the window is a "Close" button with a red X icon. Below the window is a configuration menu with tabs: "Select skin", "Name/Desc", "Monetize method", "Design", "Widget", "File", and "Create/Finish". The "File" tab is highlighted with a red box. Below the menu is the instruction "Click on a skin or skin name to select and preview." and a radio button for "Custom skin" with "Yes" and "No" options. At the bottom is a preview area with a black screen and left/right navigation arrows.

Make sure you click “File” and enter the download link of your mp3 location.

When you are customising your widget make sure you have the following settings set.

Generate Download Song (183071) Widget Code 

Generate code

How would you like your Widget to appear?

Page load
Your widget will be loaded and shown as soon as the page is loaded.

Button/OnClick
Your widget will not be loaded until the *onclick* event is fired.

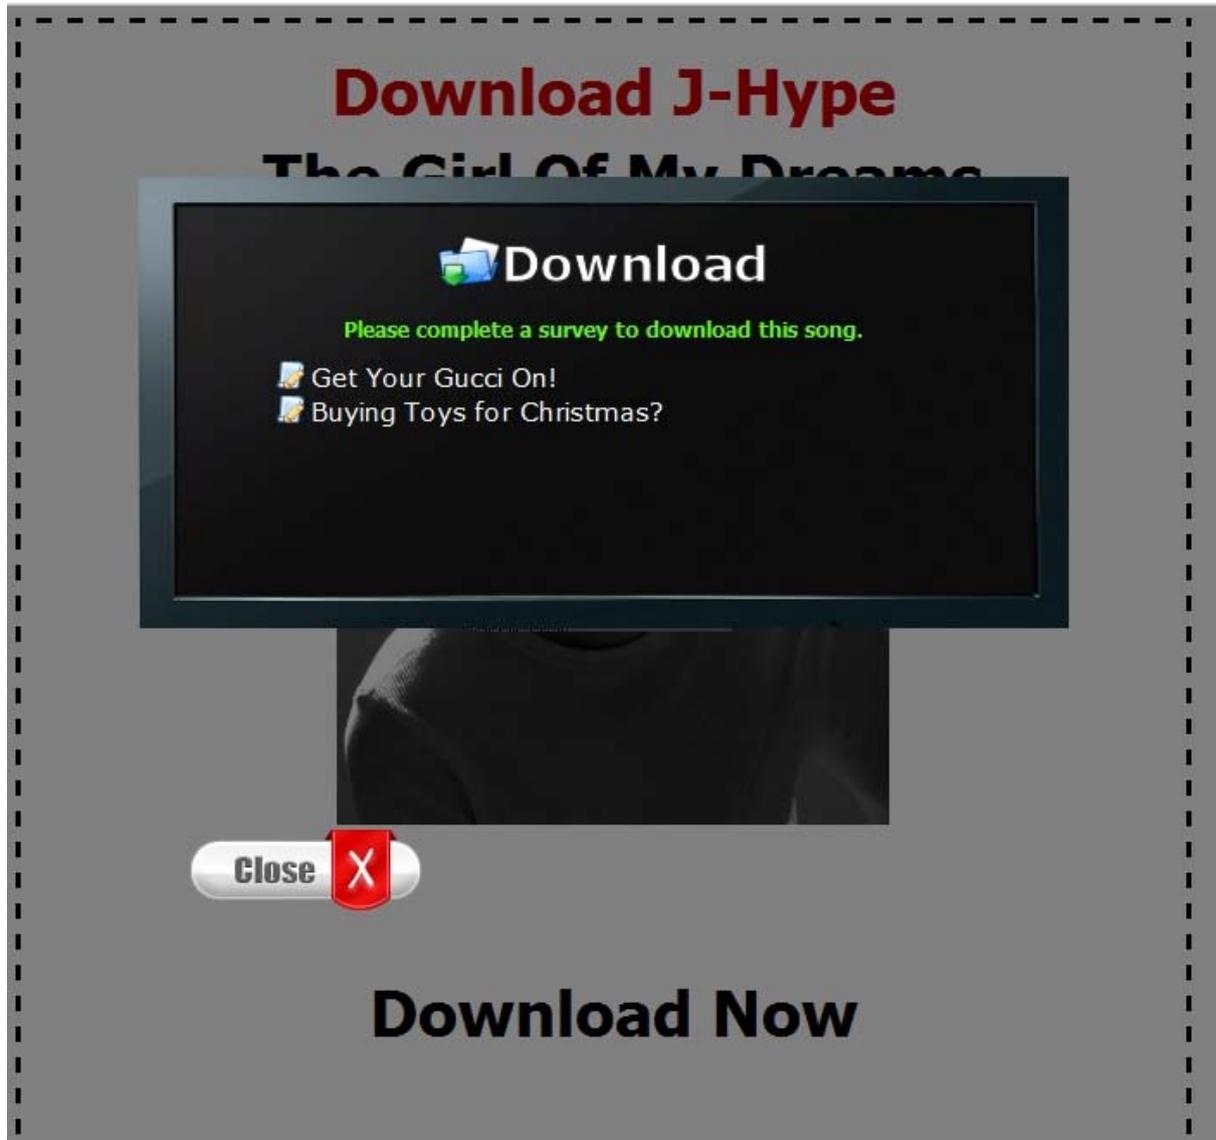

Enable "Adblock protection"
This extra code will redirect your users if they are using Adblock to attempt to block your widget.

Enable "Disabled javascript protection"
This extra code will redirect your users if they are trying to block out the widget by disabling javascript.

Next click "Generate".

Here is my Landing page link for my Youtube video.

<http://bit.ly/gmck3F>

This strategy is simply powerful.

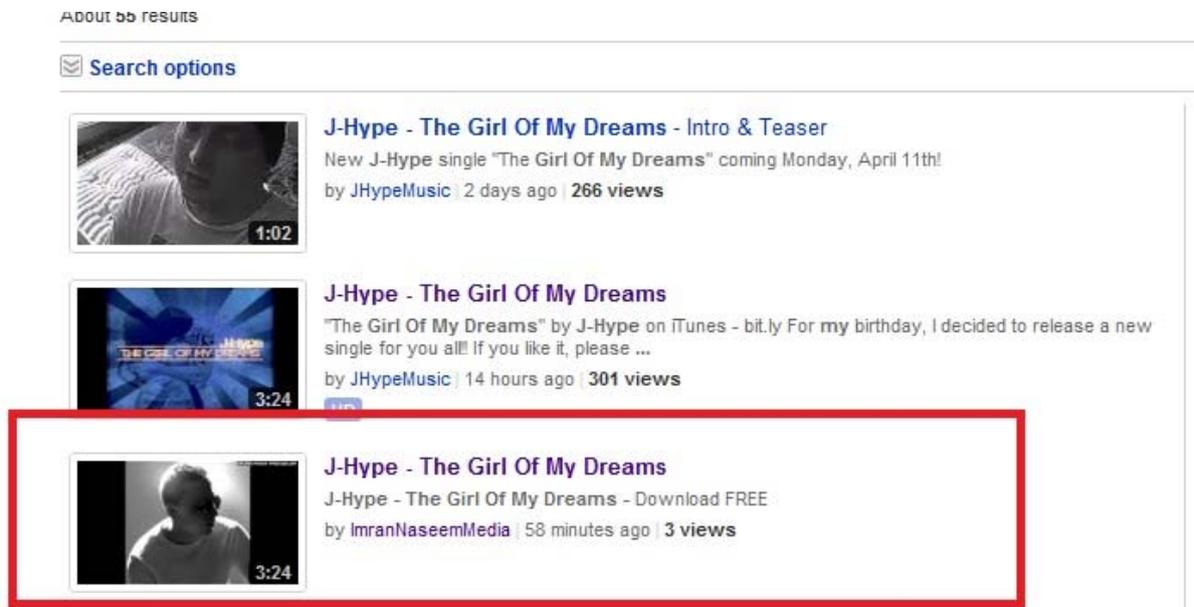

When the user completes any of the offers I get paid anywhere from \$2-\$4.00 – this can add up in a short space of time.

For example, if you had 20 videos making you \$3.00 a day that works out \$60 a day!

If you doubled that then that works out to \$120 a day.

Content Locking Profits

As you can see my video is already on the Youtube search results 😊 Just to PROVE to you how easy and powerful this is.

You can rinse and repeat this strategy with other videos.

I would outsource this and get people to upload these videos. Create lots of brand new Youtube accounts and simply profit!

For the description make sure you put the keywords in multiple times – in this case it is mainly the song title but also the artists name is also good to be in there a few times.

Sometimes you might get a “Matched Third Party” content message which means the song might be taken down. However, if this happens simply create a video with the image and direct people to your CPA Lead landing page.

The beauty of this method is that your video can end up getting 200k views in a short space of time 😊

In the next section I am going to talk about another cool method you can use to make money from CPA Lead.

One of the best ways to make money with CPA Lead is to use the power of celebrities.

Celebrities are a goldmine when it comes to making money with CPA Lead.

This method is pretty simple and yet powerful and it involves harnessing the power of a celebrity.

The first thing you need to do is find someone who can create you celebrity skins for your CPA Lead or you can head over to <http://freecpaleadskins.com/> and find lots of different CPA Lead skins.

Some are free whilst some are \$5.00. Either way this is a great site to find CPA Lead skins.

For example, here are some Angelina Jolie CPA Lead skins.

Content Locking Profits

[Angelina in Red](#)

Price: \$5 USD

[Angelina Jolie in Red-White](#)

Price: \$5 USD

[Preview](#)

[Floating Blue Reel-Angelina & HP](#)

Price: \$5 USD

[Preview](#)

[Floating Blue Reel-Angelina](#)

Price: \$4 USD

[Preview](#)

Celebrities get a ton of searches online.

For example, Justin Bieber Hairstyle gets lots of searches.

Once you have got yourself a CPA Lead skin the next thing to do is create a landing page that says something like “Justin Bieber Exposed!”.

So for example, you might want to create a simple page that will have some information about the celebrity along with a button that says “CLICK HERE TO SEE THE SHOCKING PHOTO”.

Content Locking Profits

When people click the link they will be taken to the page with the picture but you will have your CPA Lead gateway on your “skin” landing page ;)

Here is an example of something I created - <http://bit.ly/i08rTX>

Can you see how powerful this is?

Tip

I would create a Facebook Fanpage then use <http://iframes.wildfireapp.com/> to create a simple landing page that gives instructions.

I have a free video on my blog on how to use this Facebook Iframe app. It is pretty straight forward.

You can then run a simple PPC campaign for your Fanpage and then direct people to your welcome page. On the Facebook welcome page you can have something like “Shocking Justin Bieber 2 Picture” Click Like to find out more...and then direct people to the landing page with your CPA Lead code embedded ;)

This can truly be viral and by doing this you are truly leveraging the power of the celebrity.

Right now the one celebrity you might want to focus on is Rebecca Black. She is getting a ton of searches for the wrong and right reasons!

In the final section of this guide I am going to show you another cool method you can use to make money from CPA Lead.

The final section of this method involves using Craigslist.

The first thing you need to do is log in to your CPA Lead account and set up a gateway for your website.

Now head over to Craigslist and post the following ad for the product you have selected.

“Hi Guys, I have managed to get hold of a brand new (item name) so I do not need my old one. It works perfectly, despite having a few scratches here and there. The only thing you will need to do is pay for the postage. This [Item] has served me well.

If you want to get hold of this just email me your email address. I am offering this item as a first come first served basis”.

You might also want to use Gumtree for this (if you are from the UK).

The next thing you need to do is just wait for the emails to come through. Expect around 30+ emails. Who doesn't like FREE stuff?

The next thing to do is head over to Blogger or weebly.com and set up a website. Make sure you have your own domain name and make it as a “charity” type of website.

The next thing you need to do is add a final post on your website that says COMPETITION – Get your FREE Ipad 2 (or whatever you are offering) here. The proceeds will go to my education funding or something else. And in this post, IF YOU ARE using Wordpress, add the CPA Lead gateway.

Once you start getting emails simply reply to them with the following message.

“Sorry, you were a bit too slow!

My friend runs special events from time to time and he/she is running a competition for a FREE Ipad 2. So if you have 5 mins please enter this competition and you might win – go here” (URL link).

And this is all you need to do – you can put your own twist to this method.
