8. Name of Product: Omni Forex Signals

Description: After years of development our computer scientists and financial mathematicians have produced an intelligent solution for analyzing fluctuations in the main currency pairs. Through historical analysis we are able to determine when is to BUY and when to SELL the main currencies.

These signals are generated across three trading strategies: intraday, daily and weekly. Signals are generated for each strategy across all major currency pairs and are delivered to you at the times that you are able to trade. The signals indicate the recommended time to buy, the Get Profit level and the Stop Loss level.
