

TRASH TO CASH

Congratulations on coming across a book that will surely change your life due to the fact that after reading this book and following through with the steps that are laid out for you in a clear and concise form you will be earning as much as several thousand extra dollars a month.

As you can see by the cover of the book we will be discussing how you can make cash for what is considered trash by many people.

These are items that have value to many people that can be sold and help people who need these items most. The items are often thrown away and many people have extras that are just waiting to find an easy way to get rid of them.

With the economy being as tough as it is, it is an easy time to purchase these items that many people have extras of at a very good price and help them out at the same time, in addition to that you can earn money doing it.

WHAT ARE THESE “ITEMS”

These items are called “Diabetic Test Strips” they are used by diabetics around the planet that have to use them on a daily basis.

(Image Below) Example of what they look like.

They are very easy to obtain and even easier to sell at a profit, this is the perfect way to earn a solid income working from your home, a perfect home business that requires very little start-up cost, and very little time and effort, but with maximum profits as we will be discussing throughout the course of this book.

D.T.S are very commonly over stocked at families who have a patient with diabetes, they are often thrown away because people do not know how to make money from them and do not understand the value of these secret gold mines.

I am going to keep this book as short as possible and get straight to the point of how you can make money, without having fillers and words that are not necessary.

We will keep the momentum of this book exactly how it has been so far, to the point and direct of exactly what you need to do to get money. The whole point of this book is to show you an easy step by step method of making money, and that is exactly what you are getting and what you will obtain.

OBTAIN THE STRIPS

Of course before you sell the strips you must obtain the strips! Where do you get them from? Easy...Craig's list! All you have to do is post an advertisement (they are FREE) and state in the title of the advertisement that you are "Buying Diabetic Test Strips" you will be surprised and amazed at how many people will call you just eager to get rid of their extra test strips.

The health and beauty section and items wanted sections usually work best. Make sure in the advertisement you include your contact information and mention that you are looking for strips from the following brands:

Breeze2 + Ascensia Autodisc
Percision
Nova-Max
Aviva
Ascensia Contour
Ascensia Elite
Accu-Check
Bayer Contour
Contour Curve
One Touch Ultra
Freestyle Lite

DETERMINE THE VALUE OF THE STRIPS

Ask the potential seller for the “NDC#” which is essentially the retail number that is placed on each of these boxes. Some examples of what they would look like:

FreeStyle 50 ® 99073-0120-50

FreeStyle 100 ® 99073-0121-01

FreeStyle Lite 50 ® 99073-7082-22

Once you have obtained the NDC# you are ready to do some research and see what the retail value is, all you have to do is type it in Google and many results will appear of websites that sell them for retail value, the prices vary but usually are only a few dollars apart.

Often you can offer as little as 10-20% of the retail value and have people sell you the strips very happily.

You would be surprised how many people are willing to give these products up for practically nothing, compared to what they are worth over the counter.

This is simply because they have so many that are just sitting there and also because they do not know how to sell them to make a profit, and do not know the method to do so. But this is knowledge that because of this book you will know, and knowledge of course is power (and money).

SELLING THE STRIPS

So we have covered what it is you must be searching for – Diabetic Test Strips. We have covered where to get them – Craig’s List. We have covered how to determine the retail value and how much of that retail value to offer (10- 20%). Now we will cover where to sell them.

EBay

Because there are millions of diabetic patients who do not have insurance, there are constantly people searching the website auction giant eBay looking for Diabetic Test Strips to purchase from all around the world!

This is where you can come in and not only make a massive amount of profit, but also know that you are helping people! That is the greatest part of this business not only do you earn great income for practically no hard work, you get the satisfaction of knowing that you are helping the lives of people across the world and making a great impact. That is the greatest part of this process, the satisfaction of knowing what you are doing for others.

My father (May he rest in peace) who was also a diabetic told me once when I was a child; the most selfish thing you can do is to help others, because it feels so good. In this case it is very true because not only will you feel joy and pleasure in knowing you are helping people literally from all over the world, but you will be earning literally thousands a month doing it.

Congratulations and good luck on your journey.

To Your Success!
