

Youtube Money Machine

Imran Naseem

Thankyou for purchasing a copy of my latest cash cow report RSO. In this report I am going to reveal to you on how I am getting virtually FREE Unlimited traffic using Youtube.

I am using special innovative ninja methods to get this FREE traffic to my CPA offers, my websites and my Affiliate links from Amazon.

This report is called Youtube Money Machine because this is exactly what it is – a money making machine system you can use time and time again.

This report will cover all the step-by-step system I follow to make money from my CPA offers.

This system can be used for the following :-

- Offline clients
- CPA Offers
- Clickbank Offers
- Amazon Affiliate Offers
- Other Affiliate offers

This system also uses FREE traffic and this is the whole beauty of this report. I am going to show you later on in this report how you can create a powerful traffic hub and generate a ton of views to your Youtube videos.

So let's get started shall we?

Youtube SEO

In the first part of this report I am going to show proof as to just how powerful this system is.

If you ever try to rank on Google for your articles or any content then you can imagine just how hard and difficult it can be. You not only need a ton of backlinks but you also need submissions to directories and lots of articles.

If you are lazy like me and hate writing articles then you can simply use the power of Youtube videos to cash in from your affiliate offers.

Just the other day I submitted a video on Youtube and it is already indexed on Google for the keyword:-

“How to create a Google Plus Page”.

Here is another video.

I have used CPA lead on this video and this still generates cash for me on Autopilot.

It is on the first page for the keyword "Download Turbo Tax 2009 Free".

So how do you go about getting ranked high on Youtube?

In the next section I am going to show you a carefully crafted system you can use and be one step ahead of your competitors.

The first thing you need to do before anything else is do some basic research and see what people are actually going to be looking for.

Most people would tell you to head over to https://ads.youtube.com/keyword_tool and get a broad idea on what people are typing for.

This tool is useful but it does not show the exact keywords people are actually typing on Youtube.

Instead I simply use my own strategy of targeting by long tailed keywords.

So for example, let's say there were a ton of people searching for the phrase "how to get a 6 pack", and there were lots of videos on Youtube.

Instead of simply targeting this keyword I would have the main keyword such as "How to get a 6 pack in 5 easy steps".

By using a long-tailed keyword you are much likely to get a better ranking on Youtube because the search engines can see that it is long tailed and not many people will be targeting their videos by long tailed keywords.

The first thing to do before you upload your video is make sure you do research on your CPA offers that you intend to promote.

Depending on the CPA network you are with there are going to be different types of offers you would want to focus on.

Low Involvement Offers – Offers that pay for simple zip submit/email submits.

High Involvement Offers – Offers that pay just over \$50-\$60 for trial offers.

The first thing I do is log on to my CPA network and look at the offer I intend to promote.

For the purposes of this example I am going to look at high Involvement CPA offers that pay more.

Take a look at this CPA offer below.

Esotique-RF with Matrixyl
While most wrinkle treatments focus only on wrinkles, Esotique-RF contains the highest quality wrinkle fighting peptide Matrixyl AND is packed with antioxidants to protect your skin from free radicals thus protecting you from future damage.

Esotique-RF Masque with Dead Sea Minerals

This CPA offer pays just over \$29.75 to anyone who orders this anti-aging cream.

The name of this product is Esotique-RF and it is aimed mainly at women.

If we head over to Google and type in this keyword alone we can see that there are just over 15,800 results (competition is extremely low).

So the first thing you need to do is head over to Youtube and see how many videos there are for this keyword.

Believe it or not but there are NO results for this keyword!

This is great news and means we can not only rank on the first page of Youtube for this keyword but we can also rank quickly on the first page of Youtube in a matter of days!

So at this stage what I am going to do is create a simple quick video using [Windows Movie Maker](#) or [Animoto](#) for my CPA offer.

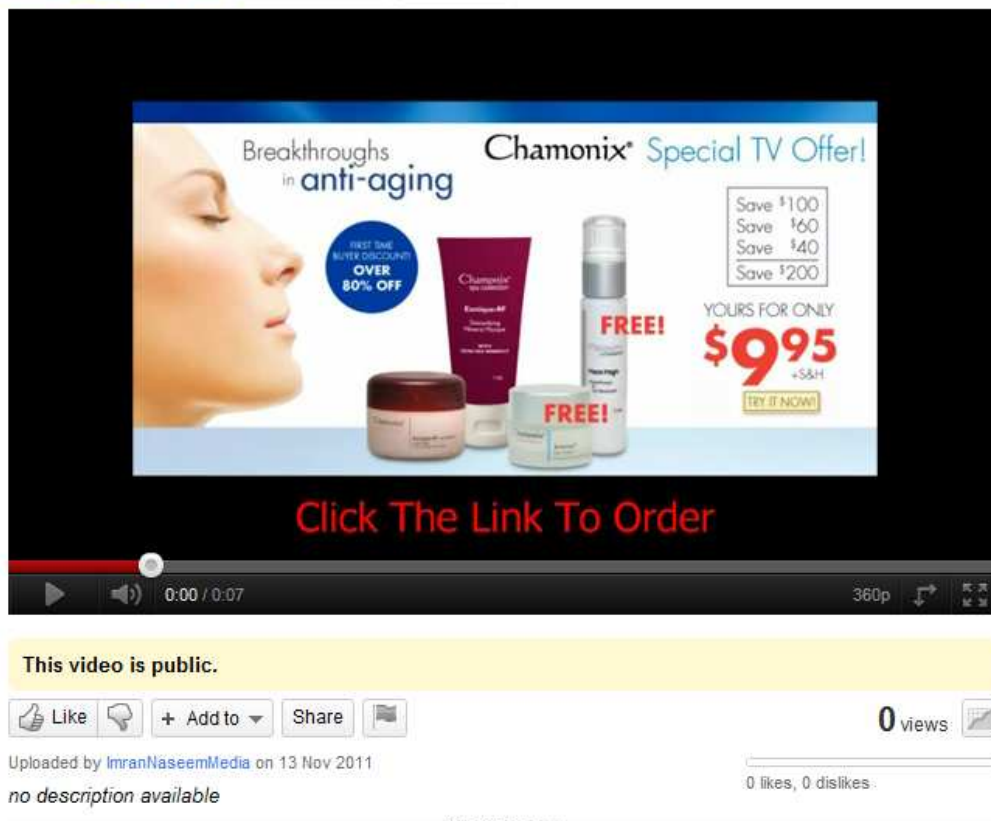

As you can see I have created a simple video using Windows Movie maker.

When it comes to directing the CPA offer you can purchase a good keyword rich domain and do direct linking straight to the CPA offer.

However, make sure your domain name is redirected and masked so it appears on the top of the users browser.

As you can see I have already been indexed on the Youtube search results (first page) for the main keyword.

- Title of video

The title of my video is long tailed and contains the main keyword I am targeting. It also contains the name of my CPA product I am targeting. Always put the name of the CPA offer/product you are targeting in the title of your video.

- **Tags of Video**

The next thing you need to focus on is make sure you get the tags of your video right. Always make sure that you enter the correct tags in the box. These tags should relate to all the different searches people are expected to type on Youtube in order to find your video.

The screenshot shows the YouTube video upload interface. A red rectangular box highlights the 'Tags' field, which contains the following text: "Esotique RF esotique review" "Esotique anti-aging cream" "Chamonix Esotique cream". Below the 'Tags' field, there is a 'Suggestions' section with a '+ Review' button. Below the suggestions, there are several buttons: '+ Fleet Review (Commonwealth Realms)', '+ Cream (nightclub)', '+ New', '+ Ice', '+ Zealand', '+ Health', and '+ Collection'.

Youtube also provides you with suggestions at the bottom and encourages you to use different tags.

- **Image of the video**

This is just as important as the title. The image of the video is going to force people to click.

I usually sometimes can get creative with my videos. For example, if I have a 10 minute video I make sure half way down the video (5 minutes) I use an image that would automatically be indexed as a thumbnail on Youtube and Google search results.

- **Youtube Annotations**

This is important and powerful. You can use Annotations to watermark your videos and direct people to other videos on Youtube.

Make sure you use the Youtube Annotations tool as much as possible.

- **Views and Ratings of Video**

This is just as important. The more views and ratings you have for your video the higher your videos will climb high on the search engines and Youtube search results.

There are a ton of gigs on Fiverr you can purchase that offer you views to your Youtube video. This not only will help you climb one step ahead of your competition but your videos will be on the first page of Google!!

Make sense? Good!

Creating a Traffic Hub for Youtube Video

One of my favourite methods in directing traffic is to create a traffic hub via a good keyword rich domain name to any video.

So for example, here is a video I have just uploaded on the boxer Amir Khan.

As you can see the domain www.amirkhan.co.uk forwards to this Youtube video.

I have done this on purpose. The aim of this concept is to leverage the power of your keyword rich domain since it will be getting a ton of searches and also get lots of views to your video.

Setting up a redirect is really easy.

Simply log in to your hosting account and click on the "redirects" feature.

Type

http://(www.?) /

redirects to→

www. redirection: ☐ Only redirect with www. ☒ Redirect with or without www. ☐ Do Not Redirect www.

☐ Wild Card Redirect

You should then see a screen that looks like this (see above).

This redirects your domain name to the any URL of your choice.

I use this strategy to get a lot of Facebook likes or to a CPA offer 😊

I call this "Youtube traffic hijacking" since we are hijacking the traffic from a good domain name.

The Youtube Money Machine system can be used for any niche and any CPA offer you want to promote.

Remember the brand name of the CPA offer is important because this is what you are going to be targeting.

You can also offer this service to Local businesses and make even more money. It would be easier to rank high for a business because of the keyword.

I hope you enjoyed the Youtube Money Machine cash cow report and now have lots of ideas buzzing in your head.

As always I have a special bonus video to give to you if you leave an honest review on the Rags to Riches forum on the thread.

Once you have left your review please message me at Naseem.igo@gmail.com and I will email you the bonus video.
